

Step 1 – Hostway Personal Web Home Page – click “Web Hosting”

The screenshot shows the Hostway website's personal web hosting section. At the top, there are tabs for Domain Name, Web Hosting, Web Design, Email, and Online Data Backup. The "PERSONAL" tab is selected. A banner on the left says "Get FREE Online Data Backup for 30 days with any Web hosting order!" and features a "DATA PROTECT" logo. Below this, there are three main service offerings: "Register Your Domain Name from \$7.95", "Web Hosting For Your Web Site with \$8.95!", and "Email Accounts With Your Domain \$89.95/year". To the right, there's a "Personal" section with a brief description and links to Customer Support, Contact Us, and the Customer Help Center. A sidebar on the right lists "Products & Services" like Domain Name (\$7.95/mo), Web Hosting (\$8.95/mo), Web Design (\$39.95/mo), and Email (\$39.95/mo). A "Domain Name Search" field is also present. At the bottom, there are links for "Need More?", "Upgrade to Small/Medium Business Plans", and "Web Resources". The footer includes links for About Hostway, Contact Us, Site Map, Legal, Customer Support, Resellers, Local Business Profile, and SiteControl Login. It also features a "soi service over internet" logo and a Trustwave SSL certificate seal.

Step 2 – Click “Learn More” next to Hostway Site Builder

The screenshot shows a Mozilla Firefox browser window displaying the Hostway Personal Web Hosting website. The URL in the address bar is <http://www.hostway.com/personal/webhosting/index.html>. The main content area shows the "Personal Web Hosting Linux" plan. The plan is priced at \$8.95 per year, with options for N/A monthly or \$39.95 setup. It includes Linux Only and no e-commerce. The "Plan Features" section lists various included services: Disk Space & Traffic (250 MB, Upgrade to 600MB), Web Design (Hostway's SiteBuilder, Microsoft® FrontPage® Extensions 2002, Professionally Designed Web Site), Email (5 accounts, Upgrade to 25 accounts, SiteMail, CleanMail, Email Forwarding, Email Aliases, Email Autoresponders, Mailing List), and Marketing Tools (\$25 Google AdWords Credit, \$50 Yahoo Search Marketing Credit, SiteBlog, Hostway Pay Per Click Advertising). A sidebar on the right provides links to Customer Support, Contact Us, and Customer Help Center, along with a search bar for domain names.

Step 3 – Site Builder Home page with link to demo – click “view demo”

Step 4 – The demo launches – click “continue to demo”

Step 5 – Sitebuilder home page – click “create/edit site”

Step 6 – select category of site you are building

The screenshot shows a Mozilla Firefox browser window with the URL <http://cm4a.siteprotect.com>. The page is titled "SiteBuilder - Mozilla Firefox". The top navigation bar includes File, Edit, View, History, Bookmarks, Tools, and Help. The Hostway logo is visible on the left, and the CM4all WebsiteCreator logo is on the right. A horizontal menu bar at the top has items 1. Category, 2. Design, 3. Design Details, 4. Arrangement, 5. Edit, 6. Extras, and 7. Publish. Below the menu, there are links for previous, help, and next. A main instruction reads: "Choose a branch, and then a sub-branch. Click on the selected branch in the left column: this will display the list of sub-categories to the right. Click on the desired sub-category, SiteBuilder will take you to the next step automatically. To continue, click the "Next" button in the top left corner or click on the next step. If you wish to modify the option selected, you may do so at any later stage." The left panel, titled "1. Main Category", lists various categories: Automobile and Transportation, Construction and Living, Education and Tele-Learning, Computer and Electronics, Leisure, Entertainment, Cuisine and Going out, Health, Commerce and Services, House and Garden, Hotel and Travel, Art and Culture, Fashion and Clothing, Sports and Recreation, Non-Profit Organisations, Personal Homepage, and Neutral Representation. The right panel, titled "2. Sub-Category", contains the message "Please select a branch of work from the left" in orange text. At the bottom of the browser window, the status bar shows "javascript:;" and "FoxyTunes" along with various icons.

Step 7 – choose a design

HOSTWAY
THE HOSTING COMPANY

CM4all WebsiteCreator

1. Category | 2. Design | 3. Design Details | 4. Arrangement | 5. Edit | 6. Extras | 7. Publish |

previous help next

Choose the style, the color and the main picture.
 In the left menu, click on the "design" links and in the left column, choose your design. Similarly for the color of the main page. If you wish to start again, you may do so at any later stage by following the "design", "color" and "main graphic" sequence. To continue, click the "Next" button in the top left corner or click on the next step.

Sample text: So that the final product and content can be pictured, here is an example with text. Of course, as this text is only an example, it will not appear later. The structure and the content of this design cannot be clicked on during this step; this takes place in the following steps. As shown here, this section deals with a paragraph, which contains graphic elements on the right. This picture is also an example and has no connection to the chosen design. If the color of design isn't satisfactory click left on "Color", more options are available here. The same applies to the main graphic, the photography used in this design. Just click "Main graphic" on the left and make your selection! By the way: links can also be simply integrated into your text.

Step 9 - Arrangement – moving content around page

The screenshot shows a Mozilla Firefox browser window with the URL <http://cm4a.siteprotect.com>. The title bar reads "SiteBuilder - Mozilla Firefox". The menu bar includes File, Edit, View, History, Bookmarks, Tools, and Help. The top right corner features the CM4all WebsiteCreator logo.

The main content area is titled "HOSTWAY THE HOSTING COMPANY" and "CM4all WebsiteCreator". A navigation bar at the top has tabs: 1. Category, 2. Design, 3. Design Details, 4. Arrangement (which is selected), 5. Edit, 6. Extras, and 7. Publish.

Below the tabs, there are links for previous, help, and next steps. A note says: "Define the map of your site. From the two proposed site maps linked to your branch, choose the one that best suits you by clicking on the button located below the proposals. You may also build your own site map using the right column. To get help, click the button in the top left corner."

The interface is divided into three columns:

- Your selection:** Shows a single item: "Home". On the left, there are icons for "New menu item", "Delete menu item", "One position up", "One position down", "In 2nd level", and "In 1st level".
- Most frequent used pages:** Lists: Home, About us, The team, Products, First Product, Second Product, Third Product, Offers, Jobs, Contact, Addresses, How to find us, Tips & Tricks.
- Our suggestions:** Lists: Home, Party news, Party links, Party program, Party pictures, Party 1, Party 2, Party 3, Where's the party?, Entertainment, Tickets, Prices, To order, New Year's Eve, Birthday.

At the bottom of each column is a blue button labeled "> Use suggestions".

The status bar at the bottom shows "Done" and "Idle".

Step 10 – editing text on the website

Step 11 – “extras” – guestbooks, forums, meta-tags, etc. This is where we should be

The screenshot shows a Mozilla Firefox browser window with the URL <http://cm4a.siteprotect.com>. The page is titled "SiteBuilder - Mozilla Firefox". The header includes the Hostway logo and the text "CM4all WebsiteCreator". A navigation bar at the top has links for "File", "Edit", "View", "History", "Bookmarks", "Tools", and "Help". Below the navigation bar, there is a horizontal menu with tabs: "1. Category", "2. Design", "3. Design Details", "4. Arrangement", "5. Edit", "6. Extras" (which is highlighted in red), and "7. Publish". On the left side, there is a sidebar with a vertical list of options, each preceded by a blue arrow: "> HTML-Title", "> Meta-tags", "> Flash-Intro", "> Counter", "> Newsticker", "> Blog", "> Guestbook", "> Voting", "> Photo Album", "> Forum", "> Database", "> Map", and "> Routing". The main content area contains the following text:

Add dynamic modules to your site.
Click the section corresponding to the module of your choice to configure it.
You can in the future edit this module at any time to modify it.
To get help, click on the top left button. Click on Next > to continue.

To add a route planner to your website, first configure your address.
[Configure](#)

At the bottom of the page, there is a toolbar with icons for "Done", "Idle", and various other functions. The status bar at the bottom right shows some system information.

Step 12 – publish site

The screenshot shows a Mozilla Firefox browser window with the URL <http://cm4a.siteprotect.com> in the address bar. The title bar reads "SiteBuilder - Mozilla Firefox". The main content area displays the HOSTWAY THE HOSTING COMPANY logo and the CM4all WebsiteCreator logo. A navigation menu at the top includes links for Category, Design, Design Details, Arrangement, Edit, Extras, and Publish (which is highlighted in orange). Below the menu, there are links for previous, help, and next steps. A message box says "Congratulations!" followed by "Your site is ready to be published. You just need to click on "Publish"". To the right of this message is a blue button labeled "> Buy <". Below the message, a note states: "After transferring your data, you can naturally return to any one of the preceding 6 steps to make changes and fine-tune your online presence. To leave the SiteBuilder, just close this browser window. Your data has already been stored." At the bottom left, it says "Thank you for using the SiteBuilder!". The status bar at the bottom of the browser window shows "Done" and "Idle".
